THANKS TO THE COOPERATION OF THE ADELI MEDICAL CENTER AND THE FACULTY OF MEDICINE UK IN BRATISLAVA, YOU HAVE THE OPPORTUNITY TO EXPERIENCE TOP NEUROREHABILITATION IN ADELI.

DO YOU WANT TO WORK IN NEUROLOGY, PEDIATRICS, REHABILITATION OR ORTHOPEDICS AFTER FINISHING YOUR STUDIES? AN INTERNSHIP WITH US WILL OPEN YOUR HORIZONTS.

WE INVITE YOU TO EXPERIENCE A DAY OR TWO, EVEN MORE DAYS UP TO 2 WEEKS, DEPENDING ON HOW YOU DECIDE, WITH US IN PIEŠŤANY.

WHAT DOES IT GIVE YOU?

1. You will learn from doctors, physiotherapists, manual therapists, speech therapists, health professionals speaking world languages.

2. We will provide you with accommodation in the hotel part of the ADELI Medical Center with free breakfast and lunch directly under the ADELI roof for free.

3. During the internship, you can observe how the entrance and exit examinations, therapies, consult with experts how top neurorehabilitation is done, proven by 20 years of experience and tangible results. You can look them up in the medical documentation or communicate directly with patients.

4. Neurorehabilitation at ADELI Medical Center also includes OXYMED, a hyperbaric chamber. A specialist doctor for OXYMED will introduce you to this area and how the hyperbaric chamber works and what effects it has for individual diagnoses.

5. In addition to all this, you will enjoy the charm of Síňava and the spa town of Piešťany.

WHO DO WE HELP?

Patients with a wide range of neurological diagnoses from cerebral palsy, consequences of premature birth or difficult births, spinal muscular atrophy, muscular dystrophy, a wide range of myopathies and epileptic encephalopathies, autistic personality spectrums, consequences of strokes, or craniocerebral injuries, spinal canal injuries, brain and spinal cord tumors, Guillain Barre syndrome, Parkinson's disease, conditions after implantation of endoprostheses, after spine operations, after limb amputations. Also, rare genetic syndromes are neither exceptional nor globally prevalent. Our goal is to increase the quality of life of severely disabled neurological patients and their relatives.

You will definitely appreciate the fact that you will meet patients from 65 countries of the world under one roof.

IF YOU ARE PASSIONATE ABOUT MEDICINE AND WANT TO EXPAND YOUR KNOWLEDGE WITH PRACTICAL EXPERIENCE, YOU ARE WELCOME.

YOUR MENTOR WILL BE:
LUCIA PATROVIČOVÁ, LEADING PHYSIOTHERAPIST ADELI MEDICAL CENTER
CONTACT: lucia.patrovicova@adelicenter.com +421 907 436 232

HOW TO GET TO US?

Contact the appointed mentor Lucia Patrovičová by email or by phone at least 2 weeks before your planned arrival. Agree on the number of internship days and, if necessary, book accommodation in our hotel. We will prepare everything for your arrival.

ADELI Medical Center is located in the beautiful surroundings of Sĺňava, and the atmosphere here is family-friendly and peaceful. So, in addition to acquiring rare and unique knowledge and skills that you won't find anywhere else, a stay at ADELI will be relaxing for your soul.

The ADELI team
We invite medical students to experience a unique opportunity of exceptional neurorehabilitation.

June 2023
20,000 patients from 68 countries around the world
20 years of existence
member of WFNRR
Neurophysiological therapy aims to restore the function of both, the central and peripheral nervous systems after brain traumas, with neurodegenerative and neuro-muscular disorders as well as genetic syndromes. The neurophysiological therapy method involves stimulating the patient's proprioception through dynamic proprioceptive correction using a dynamic orthosis known as the ADELI suit. The effects of this therapy include noticeable improvements in motor function, body and respiratory organ awareness, food intake, speech production and self-care.
We provide neurorehabilitation treatment

We work daily to better our patients' health under the supervision and interdisciplinary collaboration of certified orthopedists, neurologists, pediatric neurologists, speech therapists, qualified personnel operating the hyperbaric chambers and qualified physiotherapists (with Bachelor's, Master's, and Pediatric Doctor degrees), special educators, manual therapists, nurses, and massage therapists.
WE INVITE YOU TO EXCURSIONS, PRACTICAL TRAINING, AND INTERNSHIPS.

The team of experts at ADELI Medical Center offers the opportunity to share experiences, skills, and knowledge with international medical students.

We communicate in multiple languages (DE, EN, UA, RU, SK).
The spectrum of our pediatric patients primarily includes people treated for cerebral palsy as a consequence of complicated pregnancies and deliveries, including extremely premature births (babies born at 25 weeks gestation).

Other diagnoses include:
- Spinal muscular atrophy
- Muscular dystrophy (Duchenne and Erb types)
- A wide range of myopathies and epileptic encephalopathies
- Autism spectrum disorders
- Arthrogryposis
- Prevalently rare genetic syndromes
In the adult population, the spectrum predominates:

- Ischemic or hemorrhagic strokes and cerebrovascular accidents
- Traumatic brain injuries
- Spinal cord injuries
- Postoperative conditions related to neurological or orthopedic indications
- Brain and spinal cord tumors
- Multiple sclerosis
- AIDP - Guillain-Barré syndrome

- Parkinson's disease,
- conditions after endoprosthesis implantation,
- after surgeries for degenerative spinal conditions,
- after limb amputations aimed at self-sufficiency training.

We accept patients with a wide range of post-COVID complications for specialized Post-COVID Rehabilitation.
The ADELI Medical Center specialty is hyperbaric oxygen therapy (HBOT) in a 12-person HAUX-STARmed 2200/5.5/XL hyperbaric chamber.

www.oxymed.sk
We offer excursions

- One-day visits
- Presentation of program concepts
- HBOT (hyperbaric oxygen therapy)
- Introduction to the ADELI suit principle
- Meetings with doctors
- Round table with patients
- Lunch and refreshments
Visit

- 1 day to 2 weeks
- Maximum number of students 1
- 1 visit can host up to 5 students

Internship

- Work placement for a desired amount of time
- Individual study goals and an educational plan
- New competencies, daily consultations at all departments of ADELI
Perks

- free room and board at the ADELI hotel
- quaint and picturesque environment of the Piešťany spa town
- inside and outside pool within the grounds of the hotel
- bike routes across the region and bicycles for rent
- social and cultural events at the ADELI center and its hotel
See you in ADELI
