

Remote access to external information resources on the Comenius University in Bratislava (access from computers outside of CU network)

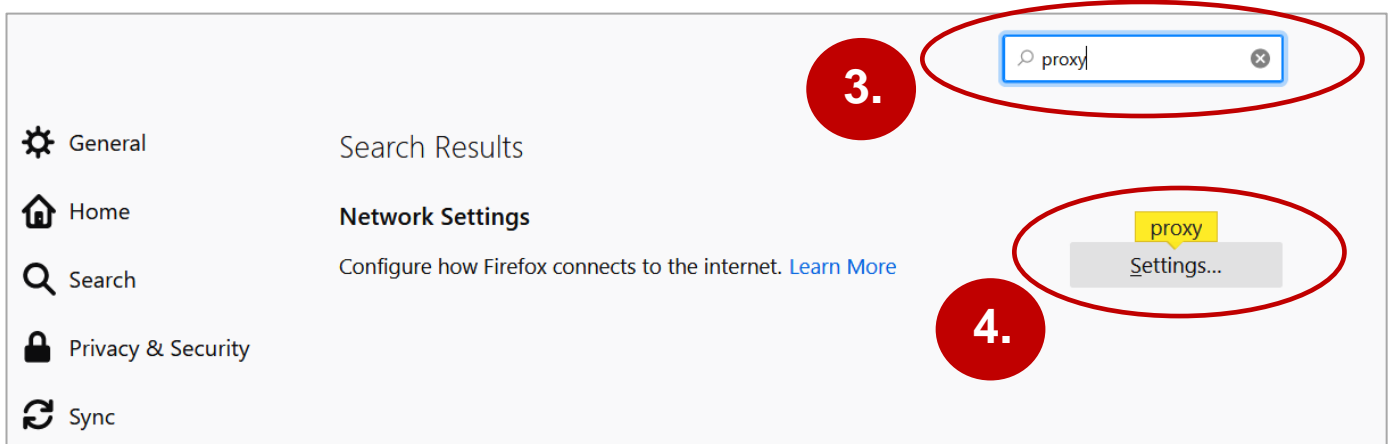

Setting for Mozilla Firefox

Open Internet Browser Mozilla Firefox

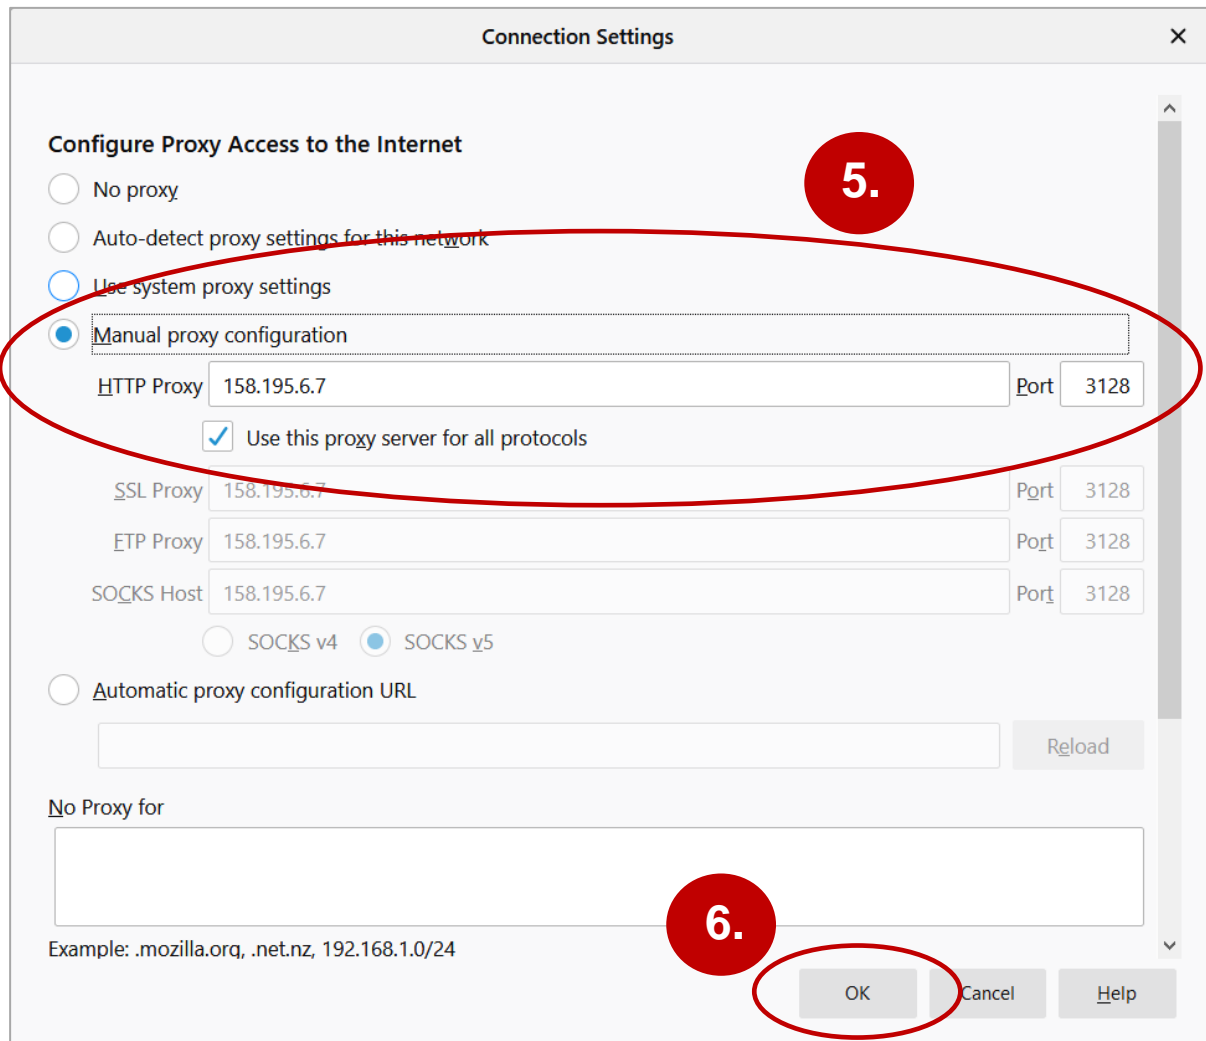

1. Click on 'Three lines' in the right corner
2. Select 'Options'

3. Type into the search box 'proxy'
4. Click on 'Settings...'

5. Check the box next to **'Manual proxy configuration'**, and type in the **'HTTP Proxy'** field : **158.195.6.7**
'Port' field: **3128**
Check the box next to **'Use this proxy server for all protocols'**
6. Confirm with click on **'OK'** button and close the browser.

7. **Again, we open the browser**, it will open a pop-up window, where we enter the login data:
User Name:
Password:
8. Confirm with click on **'OK'** button.
