INVITATION

Dear Colleagues and Friends,

We, forensic professionals in Bratislava, are honoured and pleased to organize and host, on behalf of the Slovak Society of Forensic Medicine, the 51st Conference of Forensic Medicine with international participation named after the founder of this Conference Professor Herman Krsek. Our pleasure is intensified by the fact that this Conference will be organized together with the 25th International Meeting on Forensic Medicine Alpe – Adria – Pannonia.

The world becomes smaller and international cooperation, common projects and personal contacts are vital in academic life and research. We hope that the Congress will provide an opportunity to share new knowledge, learn about scientific and professional progress and exchange experiences with other colleagues in the forensic profession. The Congress will discuss the key issues related to all fields of forensic medicine and forensic sciences dealing in particular with new trends and new experiences such as forensic radiology and imaging, refugee crisis, new techniques in forensic science, quality management and accreditation and so on. We hope that the Congress will be a forum where delegates can debate current challenges in forensic practice including education, training and research in view of the changing and complex environment in contemporary Europe.

It is our great pleasure to invite you to participate in this event. We do hope that both the scientific and social programmes will be successful, beneficial and enjoyable for all participants who have the opportunity to visit the beautiful Bratislava and spend your valuable time with us. We assure you that the organizers of this Congress will do their best to make the event a true success.

We look forward to seeing you in Bratislava!

Yours sincerely,

Organizing committee

INSTRUCTIONS FOR AUTHOR(S)

The journal Folia Societatis Medicinae Legalis Slovaca (Fol Soc Med Leg Slov) publishes peer-
reviewed articles on all aspects of forensic and morphological sciences, including original studies, review articles, case reports and experimental investigations. Manuscripts are accepted for processing if neither the article nor any essential part, tables or figures, has been or will be published or submitted elsewhere before presenting in Fol Soc Med Leg Slov. This restriction does not apply to abstracts or press reports related to scientific meetings.

Manuscripts / General Guidelines

Form of Manuscript
The manuscripts in English should be submitted in a Microsoft Word text editor. A manuscript is recommended to be written in structured form in following sequence: Introduction, Methods, Results and Conclusion. The minimal length of the manuscript should be four A4 pages. Manuscript should be typed in Arial size 10 font with keeping 12 point spacing.

Each manuscript should have a title with no full stop at the end, typed in Arial, bold, size 12 font, name(s) of the author(s) in the following form: surname, first name(s) initial(s), comma (e.g. Budinsky I.), name of the institution, city, and country. For the purpose of identification of author(s) and institution it is essential to use Arabic figures in upper index before the author’s name and institution (e.g. 1Budinsky... 1Institute...).

Following a structured abstract range up to 250 words, 3-5 keywords and address of the corresponding author, including e-mail address. The address should be followed by the manuscript itself.

Manuscripts offered in English must include the title, abstract and keywords in Slovak or Czech.

Tables and graphs should be typed neatly, each on a separate sheet, with title above and any notes below. All abbreviations should be explained. Do not provide duplicate information in tables and figures. In text must be stated, where in article it should be placed.

Figures - black and white photos – 300 dpi will be accepted.

Abbreviations - the list of abbreviations given in “Uniform Requirements for Manuscripts Submitted to Biomedical Journals” (section References) should be followed. For additional abbreviations, consult the CBE Style Manual (available from the Council of Biology Editors, 9650 Rockville Pike, Bethesda, Maryland 20814, U.S.A.) or other standard sources.

References - the journal complies with the reference style given in “Uniform Requirements for Manuscripts Submitted to Biomedical Journals”. References should be cited in text by number and numbered in order they are cited. The reference should be written at the end of the text. For the abbreviations of journal names, refer to the List of Journals Indexed in Index Medicus (available from the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402, U.S.A., DHEW Publication No. NIH 83-267; ISSN 0093-3821). Provide all names of authors when fewer than four: when four or more, list the first three and add et al. Provide article titles and inclusive pages. The author is responsible for the accuracy of reference data.
